

DISTINGUISHED LECTURE SERIES

The Departments of Information Technology and Computer Science & Computer Science and Engineering, MES College of Engineering Kuttipuram, is jointly organized Distinguished Lecture Series on “*Next Generation Multi-core Systems - An Architectural Outlook*” by Dr. John Jose, IIT Guwahati for faculty members, research scholars and PG/UG students on 13th July 2017 (Thursday) from 10.00 AM to 12.30 AM. The aim of the Distinguished Lecture Series is to bring experts from premier institutes in the country like, IIT’s, NIT’s, etc. and from industries for the benefit of our students. Another motive of the program is for creating a platform for our students to get internship opportunities and collaboration in terms of MOU with the research labs (under the invited faculty) in premier institutes.

Dr. John Jose is an assistant professor in CSE Dept, IIT Guwahati, since July 2015. He did his doctoral research from IIT Madras and M. Tech at VIT Vellore. His research interest is in computer architecture with a special focus to performance optimization related to on-chip memory and communication aspects of multi/many core processors.

The talk was really motivating for the students for familiarizing the latest concepts on Multi-core computer systems and research issues related to the area. Altogether 18 faculty members and 71 students were attended the program. In summary, the program was useful for both students as well as faculty members in the institution for familiarizing the latest research issues going in the premier institutes in India.
